Membership benefits:

- (1) Display of organization's logo on consortium webpage and other events of the consortium.
- (2) Access to non-IP protected knowledge generated by the consortium.
- (3) Invitation to one executive for all the meetings of the consortium.
- (4) Facilitating discussion with consortium members on specific problems for exploring possible solution in the areas of smart manufacturing.
- (5) Facilitating access to the laboratory scale demonstrations developed by the group at various institutes, as per the norms of the respective institutes.

Note:

- (1) The main aim of the consortium is to identify and bring highly interested members for smart manufacturing or Industry 4.0 at common platform and facilitate fruitful discussion and development in this area. More details on group activities can be found at <http://indacsm.iiti.ac.in/main>
- (2) Membership does not include the cost of specific solution development.
- (3) Solution for specific problem identified by any member may be proposed by one or more members jointly. Separate problem specific agreement needs to be signed among the members involved in such project. The agreement should clearly highlight the IPR and budget part for such development project.
- (4) It is mandatory to involve at least one of the academic institutes in any solution development project.
- (5) Statement of purpose should clearly mention proposed or ongoing activities in your organization related to smart manufacturing (Industry 4.0). Academic members should have a clear plan to initiate smart manufacturing teaching and research activities.
- (6) Renewal of your membership in the subsequent year will depend on your previous year's involvement in the group activities. Further discount may be offered for highly active members in the subsequent year's membership.
- (7) Currently membership is offered only to Indian organizations.
